2. Economics

NAVRACHANA
VIDYANI VIDYALAYA

The Senior Secondary years are perhaps the most instrumental in defining for students their future direction in life. In the final two years, learners pursue subjects of their choice, based on the particular field of higher education they have decided to pursue and ultimate career goals.

All the previous years of learning culminate in this senior section where students are trained to take the Higher Secondary Board Examination and other competitive entrance exams with a confidence borne out of adequate preparedness. Focused guidance in key subject areas, communication and IT skills by an experienced and expert faculty builds up core competency while regular evaluation makes for systematic monitoring and follow-up in the form of need-based remedial measures/enhanced learning inputs. Recognizing that this is a critical phase in the journey to adulthood, our Senior Secondary educators also seek to put their pupils at ease so that they can perform to their potential. And, since the School is committed to providing a holistic education, diverse co-scholastic opportunities are provided to develop their interests in both sports and the arts even while a structured mental health programme ensures comprehensive student wellness.

Together, all this creates a supportive learning environment that helps Vidyanians step out of Navrachana Vidyani as life-long learners, familiar with ‘design thinking’, equipped with a growth mind-set and with a strong value system in place.
